Life In A New Age

The Suzuki Liana takes you out of the ordinary and into a realm where your imagination and sense of adventure have free reign. On one level, it's everything you'd expect of a Suzuki: stylish, compact, immaculately engineered and uncommonly versatile. On another level, it's something entirely different, a car that in style, dimensions and comfort will inspire you to see every day as an open door to a new age.

Expand Your Imagination

The Liana 5-door turns convention inside out, offering a new form that is as inspiring as it is practical.

The secret is efficient packaging refined by the world's foremost maker of compact cars. Compact on the outside, the Liana 5-door seems to expand in all directions once you get inside. From the boot to the ceiling, you have more room for comfort and more space for your imagination to work with.

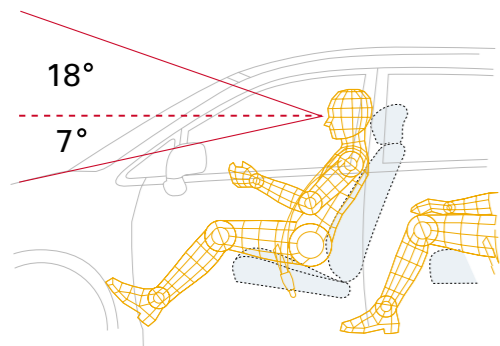

Take a Different View

Put aside everything you have been told about sedans and take a look at the new thinking behind the Liana sedan. It starts with a taller cabin, which provides more room for passengers, luggage and ideas. It's evident in the style – a unique triangle design motif that sets the Liana apart. And once you get behind the wheel the difference accelerates. Think sedans are cut from the same mold? Take a different view in the Liana.

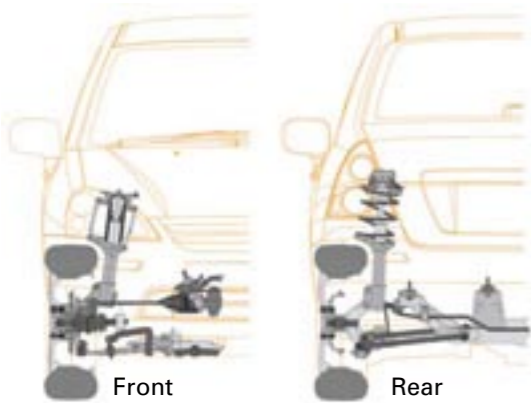

Large glass areas, tall cabin, angled pillars and a height-adjustable driver's seat add up to a thoroughly commanding view.

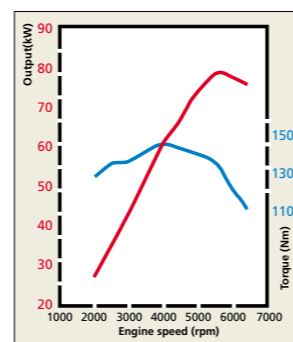

5.0m
(Minimum turning radius)

A tight turning radius makes parking easier.

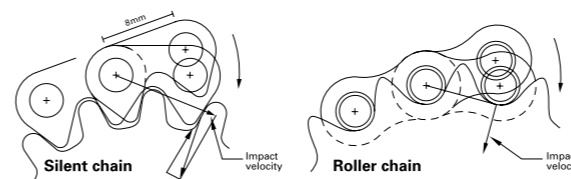

M16A engine performance curves

Maximum output:
79kW (107ps)/5,600rpm
Maximum torque:
145.0Nm (14.8kg-m)/4,000rpm

A new dimension of driving ease.

Whether you're driving the sedan or the 5-door, you'll notice the feeling — a sense of being comfortable and at ease in the driver's seat. Visibility is superb in each direction, due to a well-engineered and fully adjustable driving position, as well as to a sharply angled front pillar that provides a wider view to the side. Controls are ergonomically designed and positioned, with the audio system high on the console within easy reach.

The camshafts are driven by Suzuki's Silent Chain rather than a conventional roller chain for quieter, more efficient performance.

Audio and air conditioner (optional)

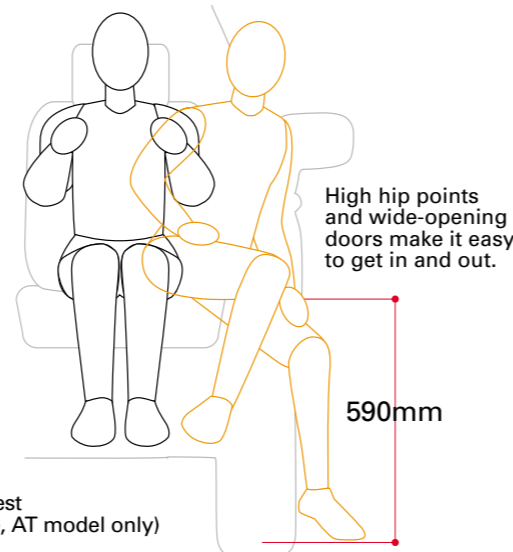

Audio switch on steering wheel (optional)

Accessory socket (floor centre console)

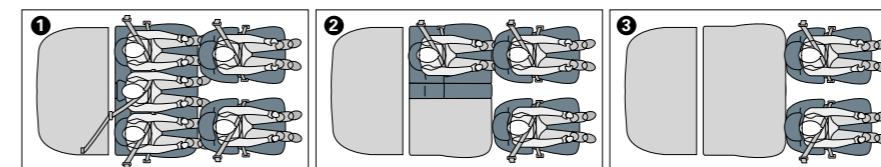

Accessory socket (optional) (centre console)

Centre armrest (driver's side, AT model only)

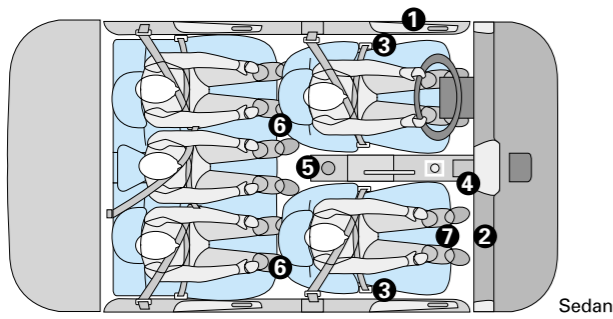

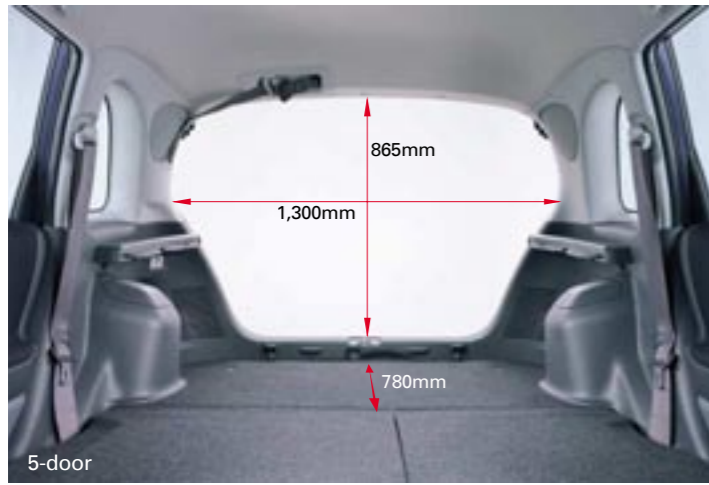

An oasis of comfort for all to enjoy.

In a car interior comfort begins with space, and the Liana maximizes the amount available to each passenger. Legroom is surprisingly generous, while headroom is exceptional due to the tall cabin. For the driver and all occupants, the seats are designed to minimize fatigue and feature high-quality fabrics that indulge everyone in comfort and style. Wide expanses of glass afford panoramic views that contribute to the open, airy feeling.

5-door Seat Arrangements

- 1 Seating for 5 (three-point seatbelts for all) and a full-size compartment for luggage.
- 2 One side of the rear seat folds down to accommodate extra-long luggage.
- 3 Folding down both sides of the rear seat opens up a huge space with a flat floor.

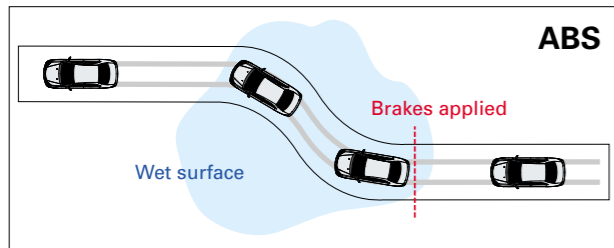

- ① Sunglass holder (front driver's side)
- ② Glove box
- ③ Front door pocket
- ④ Front cupholder
- ⑤ Rear cupholder
- ⑥ Front seatback pocket
- ⑦ Front-seat undertray pocket (passenger's side)

The space you need for the gear you want.

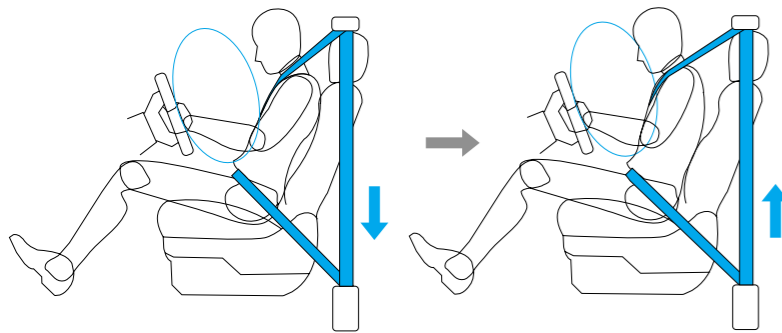

Liana provides a generous amount of space not only for occupants, but for their belongings, too. The 5-door boasts a luggage area that is broad, deep, and easily accessible through the wide tailgate. The high roof is a help in stowing items, and the split rear seatbacks fold down so you can squeeze in a few extra bundles of fun. The sedan has a surprisingly spacious boot, which opens wide for convenient loading. In both models you'll find plenty of places, front and rear, to stash magazines, CDs, maps, drinks and more.

Four-wheel ABS (anti-lock braking system) prevents wheel lockup during hard braking, letting you maintain control even on slippery surfaces.

Both the sedan and the 5-door have a 3-point seatbelt for the center rear-seat passenger.

Three-point front seatbelts include a pretensioner, a force limiter, and height adjustable shoulder anchorage.

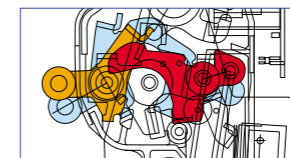

Front and side airbags

The reassurance of safety and security.

The Liana makes no compromises in safety and security. Safety measures include a body structure that effectively absorbs impact forces, reinforced doors, child-proof door locks, and three-point seatbelts for five occupants. Dual front airbags and side airbags are available as options. Theft security concerns are alleviated by deadlocks and sealed lock mechanisms that prevent locks from opening even if a window is broken. Further protection is provided by a strong steering lock and an immobiliser activated by a chip in the key, so even another key of the same shape won't start the engine.

The body structure absorbs impact forces by crumpling progressively, fully protecting occupants from front, side and rear collisions.

Side door lock mechanism (deadlock)
